CONCEALED A DESERTER.
 As a sequel to the story published last week of one Van Looy, a deserter, who was arrested in the Follenhof Block, Calgary, Mrs. Walls was fined \$80 in the police court on Friday by Magistrate Davidson. She pleaded not guilty, claiming that Van Looy had only visited her three times since he

SAVAGE SHIPS SUNK BY U-BOATS
 From January, 1915, to the end of May, 1918, 407 ships sunk by the Germans in British waters have been salvaged, according to details of the work of the admiralty salvage department, made public in the press.
 Up to December 1917, 260 ships were recovered. In the present year to the end of May 147 have been salvaged, the increase being due to improved methods.
 Among the difficulties encountered has been the action of poisonous gases from the rotting cargoes of the sunken ships, which sometimes have caused the loss of lives. One salvage party was surprised while working on a wreck, while sometimes the work of weeks is destroyed by the rough sea. Feats performed by the salvage department include the raising of a large collier sunk in twelve fathoms of water and involving a dead lift of 3500 tons.

JUDGE LEE'S TOBACCO MAN FOUND.

constant flow of melody, broken now and then by the harsh discordant "caw-caw" of the crows fluttering clumsily among the tree tops or the impudent chattering of a pair of magpies. Thrushes are carpeted with the softness of dust, which stirred up into clouds by passing vehicles, has in settling filmed with grey the foliage of roadside vegetation and shrubbery.
 On Dominion Day over here there was a monster celebration for the Canadian corps at one of the villages a short distance behind the line. The majority of Canadian celebrities at present on this side of the pond (outside of yours truly, who was detained on duty at the battalion orderly room) were in attendance. Among the number were Sir Robert Borden, Sir Edward Kemp, the Duke of Connaught, Sir Arthur Currie, a quartette of Divisional commanders, and whole platoons of Brigadier Generals and Staff Officers, and what surpassed in attraction the whole show of red tails and gold braid, a party of Canadian nurses. Speeches and the Corps championship sports embraced the major portion of the day's program. In the latter, in the three mile cross country team race event, the competitors from throughout landed, first place. I suppose you will have heard before this reaches you that Harold Gaetz is on his way back to Canada. He was invalided from France with pneumonia.
 Lieut. J. B. Corley has his old rank of Captain back again. He is at present on leave to Ireland.
 I once saw the Y.M.C.A. in France has come in for considerable criticism from some Ontario war veterans' association. All I can say is that if a few more were taken among the combatant units of the Canadian Corps, the result would be a unanimous verdict that the Y.M.C.A. was the best, least expensive, and most successful institution for the benefit of Canadian soldiers in France today.
 Have not heard from father lately. Love,
 TEDDY.

BANK OF MONTREAL
 ESTABLISHED OVER 100 YEARS
Consistent Saving
 The systematic and consistent saving of money, is a duty which devolves upon every one of us. The Bank of Montreal will open Savings Accounts on receipt of \$1 and accept thereon deposits of \$1 and upwards.

 31 Six spikes Stocks. 1st .75 2nd .50
 32 Six bunches of Sweet Peas, 12 spikes in each. 1st \$1.50 2nd \$1.00
 33 Six bunches of Sweet Peas, 12 spikes in each and distinct. 1st 1.00 2nd .75
 34 Most artistic bouquet of Sweet Peas, tied. 1st 1.00 2nd .75
 35 Most artistic bouquet of Sweet Peas, loose. 1st 1.00 2nd .75
 36 Six Phlox Drummonds. 1st .75 2nd .50
 37 Collection of Verbena, not more than six spikes. 1st .75 2nd .50
 38 Collection of Poppies. 1st .75 2nd .50
 39 Six Anthriscus (Snapdragons) spikes. 1st .75 2nd .50
 40 Collection of Nasturtiums. 1st .75 2nd .50
 41 Collection of Canterbury Bells, 3 spikes each. 1st .75 2nd .50
 42 Collection of Larkspur, 3 spikes each. 1st .75 2nd .50
 43 Six bunches of Anemones, distinct, not more than six spikes of one kind. 1st 1.00 2nd .75
 44 Six bunches of Pernetia, distinct, not more than six spikes of one kind. 1st 1.00 2nd .75
 45 Collection of garden flowers, names of varieties not previously specified. 1st 1.00 2nd .75

SECTION 6
 Plants in Pot (Amateurs only)
 46 Six plants, flowering only. \$4.00 \$2.50
 47 Six plants, foliage only. 4.00 2.50
 48 Collection of Ferns. 2.00 1.50
 49 One Coleus. 1.25 1.00
 50 One Primula. 1.25 1.00
 51 One Primula Obconica. 1.25 1.00
 52 One Cyclamen. 1.25 1.00
 53 One Begonia, Rex. 1.25 1.00
 54 One Begonia, tuberosa. 1.25 1.00
 55 One Begonia, fibrosa root, flowering. 1.25 1.00
 56 One Begonia, fibrosa root, foliage. 1.25 1.00
 57 One Campanula (Star of Bethlehem). 1.25 1.00
 58 One Pelargonium. 1.25 1.00
 59 One Geranium, various. 1.25 1.00
 60 One Geranium, ivy leaved, in bloom. 1.25 1.00
 61 One Geranium, single flowered, in bloom. 1.25 1.00
 62 One Geranium, double flowered, in bloom. 1.25 1.00
 63 One Geranium, any other variety, in bloom. 1.25 1.00
 64 One Fuchsia, in bloom, single. 1.25 1.00
 65 One Fuchsia, in bloom, double. 1.25 1.00
 66 One Palm. 1.25 1.00
 67 One Oleander. 1.25 1.00
 68 One Hydrangea. 1.25 1.00
 69 One Rose, in bloom. 1.25 1.00
 70 One Lily. 1.25 1.00
 71 One Maiden Hair Fern. 1.25 1.00
 72 One Boston Fern. 1.25 1.00
 73 One Asparagus, Plumosus. 1.25 1.00
 74 One Asparagus, Sprengeri. 1.25 1.00

75 One Fern, any variety. 1.25 1.00
 76 One Double Petunia, in bloom. 1.25 1.00
 77 One plant, any variety. 1.25 1.00
 78 Specimen of foliage plant, any variety. 1.25 1.00
 79 Specimen of flowering plant, any variety. 1.25 1.00
 80 Hanging basket of plants. 1.50 1.00

SECTION 7
 Fruits (Amateurs only)
 81 Six Crabs. 1st 1.00 2nd .75
 82 Twenty-four Gooseberries, cultivated. 1.00 .75
 83 Half pint Black Currants. 1.00 .75
 84 Half pint Red Currants. 1.00 .75
 85 Half pint White Currants. 1.00 .75
 86 Half pint Red Raspberries. 1.00 .75
 87 Half pint White, Black or Yellow Raspberries. 1.00 .75
 88 Collection of Cultivated Fruits. 1.00 2.00
 89 Collection of Wild Fruits and Nuts, exhibited on the wood. This collection must include sample of plant with fruit thereon, if possible. If season for fruit is over, the latter must be preserved. 1.00 2.00
 90 Half pint of Strawberries. 1.00 .75

SECTION 8
 Vegetables (Amateurs only)
 91 Twelve pods of Dwarf Beans, green. 1st 1.00 2nd .75
 92 Twelve pods of Dwarf Beans, yellow. 1.00 .75
 93 Twelve pods of Broad Beans. 1.00 .75
 94 Twelve pods of Broad Beans. 1.00 .75
 95 Twelve pods of Peas, long. 1.00 .75
 96 Twelve pods of Peas, short. 1.00 .75
 97 Two heads of Cauliflower. 1st 1.50 2nd 1.00
 98 Two heads of flat Cabbage. 1.00 .75
 99 Two heads of round Cabbage. 1.00 .75
 100 Two heads of Red Cabbage. 1.00 .75
 101 Two Savoy. 1.00 .75
 102 Two heads of Brussels Sprouts. 1.00 .75
 103 Six roots of Carrots, short, stump. 1.00 .75
 104 Six roots of Carrots, intermediate. 1.00 .75
 105 Six roots of Carrots, long. 1.00 .75
 106 Twelve roots of Radishes, round. 1.00 .75
 107 Four heads of Celery, white. 1.00 .75
 108 Four heads of Celery, yellow. 1.00 .75
 109 Four heads of Celery. 1.00 .75
 110 Six Onions, from seed, yellow. 1.00 .75
 111 Six Onions, from seed, red. 1.00 .75
 112 Six Onions, from seed, any other color. 1.00 .75
 113 One pint Pickling Onions. 1.00 .75
 114 Six Onions, from sets. 1.00 .75
 115 Six clusters of Shallots. 1.00 .75
 116 Six Leeks. 1.00 .75
 117 Two Vegetable Marrows. 1.00 .75
 118 Two Squash. 1.00 .75
 119 Two Pumpkins. 1.00 .75
 120 Two Cucumbers, ridge. 1.00 .75
 121 Two Cucumbers, fringed. 1.00 .75
 122 Three green Tomatoes. 1.00 .75
 123 Six ripe Tomatoes. 1.25 .75
 124 Three Beets, long. 1.00 .75
 125 Three Beets, round. 1.00 .75
 126 Six Parsnips, long. 1.00 .75
 127 Six cobs of Corn, sweet. 1.00 .75
 128 Six cobs of Corn, squaw. 1.00 .75
 129 Three garden Turnips, white. 1.00 .75
 130 Three garden Turnips, yellow. 1.00 .75
 131 Three Swede Turnips. 1.00 .75
 132 Six round Potatoes, colored. 1.25 .75
 133 Six kidney Potatoes, white. 1.25 .75
 134 Six kidney Potatoes, colored. 1.25 .75
 135 Collection of Potatoes, named, 4 of each. 2.00 1.50
 141 Collection of Herbs, Parsley included. 1.00 .75
 142 Collection of Salads, Lettuce included. 1.00 .75
 143 Six slices of Rhubarb. 1.25 .75
 144 Plate of cooked Potatoes. 1.25 .75
 145 Collection of Vegetables. 1st 2nd 3rd \$5.00 \$3.00 \$2.00

SECTION 9
 For Children
 146 One Geranium, single. 1st .50 2nd .25 3rd .10
 147 One Geranium, double. 1st .50 2nd .25 3rd .10
 148 One Fuchsia, single. 1st .50 2nd .25 3rd .10
 149 One Fuchsia, double. 1st .50 2nd .25 3rd .10
 150 One Coleus. 1st .50 2nd .25 3rd .10
 151 One foliage plant, any other variety. 1st .50 2nd .25 3rd .10
 152 One flowering plant, any other variety. 1st .50 2nd .25 3rd .10
 153 Six Storden Turnips, white. 1st .50 2nd .25 3rd .10
 154 Six Asters. 1st .50 2nd .25 3rd .10
 155 Twelve spikes of Sweet Peas. 1st .50 2nd .25 3rd .10
 156 Bouquet of garden flowers, tied. 1st .50 2nd .25 3rd .10
 157 Bouquet of wild flowers, tied. 1st .50 2nd .25 3rd .10
 158 Basket of garden flowers. 1.00 .75 .50
 N.B.—Exhibitors must be under fifteen years of age. The exhibits must be the bona-fide work or culture of the exhibitors.
RULES AND REGULATIONS
 1. All members of the Horticultural Society will be entitled to exhibit free of charge. Non-members may exhibit upon payment of \$5.00 per entry, with maximum entry fee of \$20.00.
 2. All exhibitors must send in to Mrs. H. E. Davidson, Manager, a list of their exhibits, writing clearly and distinctly the number of the class and the number of the section of each entry, and the name and address of the exhibitor.
 Entries may be made by mail, provided they reach the Assistant Secretary not later than August 20th.
 For further information apply to Mr. John Reid, or to Mr. W. T. Coote.
 Remember that entries must be made two days before the Show—Tuesday, August 20, is the last day for entries.
 The judges are not obliged to award a first prize, or any prize, unless the exhibit warrants it.
 No exhibit to be entered in more than one class.

Harold Marcourt writes to a friend in the country: My dear friend—A few lines I write you amid the turmoil and strife. No doubt you have often wondered why I have not written before now. Forgive me, but honest truth to tell, the fault did not wholly lie with me. I've been down the line in hospital quite a while, sick, but sick in more ways than one. I can assure you of the fact. Well, how are you all? Belle? I sincerely hope in the best of health. Do you know, all the mail I have had in the last four months has been two letters, one from Mrs. H. Donomey, the other from Isabel Hartle, the result being I've as much heart to 'carry on' as a pig on land, and that's not much. Letters from home are our only consolation and joy over here, they act like a tonic when we are most depressed. This statement is no exaggeration. I've seen boys here in my own battery, ask for mail, and on being told there is none for them they just sit and brood, and others swear by all that's holy they'll never write home again till they are in receipt of a letter, so you see from what I've just related a letter from home is priceless, so to speak. A few of the local boys, I believe, are gradually finding their way home, good luck to them in I wish. Seems to me I shall be one of the last to come back, but better late than never, I should guess. It's a donkey's age since leaving God's own country, however, I will be satisfied to arrive back with a beard and snow white hair, a pair of green spectacles and a crutch, what a sight for the Gods to behold. I'll make a fine specimen for Dr. George's museum, along about that time. 'A relic of the Great War! O Caesar! Oh, well, I'm feeling A1. Every time I run you can hear my bones rattle 'like money on a church collection plate.' My head feels like a last years cabbage, you know, decayed. My fingers will make excellent darned needles, they are so fine. All in all, I'm in a ripping state, to be sure, yet quite capable of holding out another ten years of war. What hopes, some. I presume Jim will have quite an acreage in this year, will he not? Every acre counts these days, believe me, the eyes of Europe are looking eagerly to see what crop results will be in the Dominion and the States. Let it be a bumper and here's hoping the best of success to every farmer and stock raiser on the whole of the American continent. I wrote to Judge Lees, of Red Deer, last week, as I received quite a bunch of tobacco from him. We are at present having most glorious weather, which I hope will last for some time. There is no news of importance to relate, so will bring this note to a close. Best regards to E. Pye and family, also 'litter folk' around the district. In conclusion accept for yourself, Jim, and the youngsters, my deep respects. Wish you the best of health and success. Well, 'au revoir' and now God bless you all—Ever your faithful friend,
 HAROLD.
 Teddy Meeres, writing home, has the following on flowers in France, and other news.
 Somewhere in France, July 17th 1918.
 Mother dear—June has passed and July has made its advent under weather conditions that have favored the ideal summer: sultry, sunshiny days occasionally giving way to cool cloudy ones, though bursts of rain and mellow starlight nights that dispel the heat and glare of the day, and laden the air with the fragrance of field and wood land. Grain crops are ripening fast. In fact in places the harvest has already commenced, but not to the hum of the binder or the clatter of the mower, but the laborious swish away of scythe or sickle. The poppies and cornflowers that earlier so abundantly decked the grain fields seem to have faded with the maturing of the grain, but along the edges of the fields and in the uncultivated meadows they still bloom profusely, interspersed with white daisies and scores of flowers of which I do not know the names, which half conceal the lovely bluish tint of the daisy pink and white bell-shaped blossoms that hug the earth beneath them. In the shelter of the roads the vegetation is remarkably rank and dense, and in many instances four to five feet in height. It consists chiefly of ferns, bracken with great spreading leaves, nettles and our old friend the Canadian woods, with its spikes of deep mauve blossoms, the fireweed. In open and sunny glades the searcher may be rewarded with an abundance of numerous wild strawberries, clinging to the leaves of weeds and shrubbery are scores of snails, enclosed in gaily tinted and striped shells. On the ground one may find larger ones, but about as much as a boy and a half in length, which do not carry around their homes with them, but shrink up into a ball when disturbed. In the trees during the day time feathered songsters keep up a

ROYAL CANADIAN AIR SERVICE HAS NOW BEEN FORMED
 HAS FOR PRIMARY OBJECT DEFENCE OF CANADA SAYS ACTING MINISTER.
 Ottawa, Aug. 9.—Hon. A. K. McLean, acting minister of the department of naval service yesterday announced the formation of the Royal Canadian Air Service. This organization which will come under the direction of the naval department, has for its primary object the defence of Canada's coasts, but men enlisting in the new air force will be liable for service outside the Dominion if necessary.
 Candidates accepted for the Royal Canadian Air service will be enlisted as cadets and will be required to sign on for three years or for six months after the duration of the war.
 It was stated at the department yesterday that pilots of seaplanes, airplanes and kite balloons were required immediately in connection with the new organization. Only young men born of natural British subjects between the ages of 17 and 26 and in the highest medical category, will be accepted, and arrangements have been completed with the militia authorities under which accepted candidates will be released for service in the Royal Canadian Air service. Seaplane cadets, it is said, will be trained in the United States this winter and airship cadets will be sent to England for training.
 The naval department is now open to receive applications from young men with the necessary qualifications who wish to enter the air force. Applications should be made on the forms supplied for the purpose which may be obtained by writing to the recruiting secretary, department of naval service, Wellington Street, Ottawa. The department requires that applications shall be accompanied by a copy of the candidate's birth certificate, a recommendation as to character from some responsible adult and a doctor's certificate as to medical category. Instructions by the department as to the nearest doctor for purposes of medical examination and in connection with this, travelling expenses where necessary will be refunded.
 G. Stege, a prospector who has been working on the head waters of the Peace River, has arrived at Peace River town for supplies. He states that there are rich deposits of gold, silver, copper galena, and lead in the country on Hudson Hope westward to the sources of the Farnham and Findlay rivers, and he predicts that there will be prosperous mining camps there as soon as railway transportation facilities have been provided. He also states that there are great deposits of anthracite coal in the neighborhood of Hudson Hope, which will be available by the construction of the Prince George and Eastern railway. This coal has been tested by several of the Canadian and United States assayers who agree that it contains three per cent more fixed carbon than the best Pennsylvania anthracite.

Hail Insurance
 We can give you almost any hail insurance Company you want, at the same rates as last year.
 We pride ourselves on having the strongest companies in the business.
 The hail insurance charge is a necessary business protection. As a matter of straight business and horse sense, the expenditure of the farm should carry a hail insurance policy just as much as a fire insurance policy or a life insurance policy. It does not pay to take chances.
 Let our staff show you our companies and our charges. Our record ensures satisfaction.

WEDNESDAY, AUGUST 14, 1918

"The Albertan (Calgary) cannot understand why the government was not content to permit a man with the principles and ideas and unflinching ability of Mr. Galbraith to go unopposed. It could rest assured that he would support progressive legislation, and that when he opposed any measure that it would be well to give it further consideration."

BRITAIN'S WORK IN THE WAR.

Great Britain's contribution to the success of the Allies was made public on the fourth anniversary of the United Kingdom's entrance into the war, by the British Bureau of Information of the British War Mission.

The bureau, which enumerates among other things the fact that Great Britain and her colonies have raised 7,500,000 soldiers, of whom 500,000 have been slain and 2,000,000 are wounded or missing in England, herself, it is said, has furnished 60 per cent. of the fighters and suffered 70 per cent. of the casualties.

British soldiers have fought on seventeen fronts in the past four years, including Belgium, France, Italy, Serbia, Greece, Russia, Palestine, Mesopotamia, China, and North, East and West Africa.

The British expenditure of rifle ammunition per week is now sixty-five times greater than the average weekly expenditure during the first ten months of the struggle. The machine gun output is thirty-nine times greater. The ministry of munitions now handles 50,000,000 articles per week and in addition to more than ninety armaments, Great Britain has 5,000 Government controlled factories, all working night and day on munitions and supplies.

The British navy has trebled its personnel and doubled its fighting armament since entering the conflict. It and the merchant marine have transported overseas 10,000,000 men, 2,000,000 horses and mules, 500,000 cannon gun carriages, and other vehicles, 25,000,000 tons of explosives, 5,000,000 tons of oil and fuel and 130,000,000 tons of food and other stores.

The ill-famed word "kultur" comes in for a savage analysis. Franz von Seyden, in the first frenzy of the war, said: "The Germans are the elect people of the earth. They will accomplish their destiny, which is to rule the world and to guide all other nations to their common happiness."

The bureau answers von Seyden by presenting a table of the worst forms of crime committed in Germany and England during the ten years, 1897-1907, as follows:

	Germany	England
Murder	350	97
Incest	573	56
Rape	3,381	215

"The people of America" the triumph of the bureau's report says in conclusion, "you fathers and mothers, wives, sisters, and sweethearts of the men you have sent to France, I ask you to study that table. Kultur should be known by its results, and if 'bonheur' England can show such a case against 'enlightened' Germany, is it not worth four years, or if need be, forty years of war to keep your country and ours clear of the virus of kultur?"

age on the articles of a British vessel."

Each subsequent experience will be shown by a bar. It is high time that the rest of us take a thought for the hundreds below decks, combatants and non-combatants alike.

BEIJING'S ELIZABETHVILLE.

In one of the most beautiful English valleys, far from devastated Belgium there is a little village where, here and there, below decks, combatants and non-combatants alike.

With the British army in France, Aug. 9.—The British and French divisions have gained more ground in the great battle raging in the Amiens-Somme district. The latest reports appear to show the Germans are retiring in great haste.

The scene of the battle ground over which the allies have just passed gives evidence of this haste in abandoned guns, stores and even regimental and artillery machines and papers.

Aerial observers report large streams of transport and men hurrying eastward in full retreat.

Deboncourt fell to the allied forces this morning and Lequesnel also was taken after hot night fighting.

The cavalry is working far back toward the Somme and is still rounding up villages, while tanks and armored cars are running over the country clearing away for the troops or killing horses drawing enemy supplies.

The drivers of motor trucks and lorries are chasing parties of Germans here and there, scattering them or running them to earth.

WORK OF ARMORED CARS.

The details of some of the work of these armored cars show that they have performed valiant service. One of them ran into a German held trench yesterday afternoon, while the German corps stationed there were having lunch. It turned its guns through the course quarters windows, killed some of the staff and then caused others who escaped from the house.

Another staff car set an enemy train on fire.

A group of cars met far inside the enemy lines a German supply column and halted it. Four mounted gun officers came up to see what the trouble was and were shot from the cars which then proceeded to make quick work of the column.

At Framerville, the cars engaged a train loaded with the enemy and finally set it on fire. Tanks entered this town afterwards, helped the armored cars clean it up and hoisted flags on the roofs of the buildings, which had been German corps headquarters.

One car met a high German officer riding in an automobile along the road. The officer was killed and his machine captured. All along the line snipers and isolated machine gun bullets were in ambush, but these were being silenced one by one as the advance proceeded.

GERMANS RETIRING AT RAPID RATE IN AMIENS DISTRICT

TWO GERMAN REGIMENTAL COMMANDERS HAVE BEEN CAPTURED IN ONE SECTOR: ARMORED CARS ENGAGED ENEMY TRAIN.

With the British army in France, Aug. 9.—The British and French divisions have gained more ground in the great battle raging in the Amiens-Somme district. The latest reports appear to show the Germans are retiring in great haste.

The scene of the battle ground over which the allies have just passed gives evidence of this haste in abandoned guns, stores and even regimental and artillery machines and papers.

Aerial observers report large streams of transport and men hurrying eastward in full retreat.

Deboncourt fell to the allied forces this morning and Lequesnel also was taken after hot night fighting.

The cavalry is working far back toward the Somme and is still rounding up villages, while tanks and armored cars are running over the country clearing away for the troops or killing horses drawing enemy supplies.

The drivers of motor trucks and lorries are chasing parties of Germans here and there, scattering them or running them to earth.

WORK OF ARMORED CARS.

The details of some of the work of these armored cars show that they have performed valiant service. One of them ran into a German held trench yesterday afternoon, while the German corps stationed there were having lunch. It turned its guns through the course quarters windows, killed some of the staff and then caused others who escaped from the house.

Do You Ever Feel Like Making a Noise?

Well! That is how we feel this morning; and we have gone through the whole house and selected lines from each Department for this week's selling that will make the echo of this week's sales a constant Ringing of the Bells of the Registers set to a new tune and faster time. Each note will ring clear, proclaiming a substantial saving of a careful, far-sighted customer.

Let these bells ring for you in registering money saved on goods you want and cannot hope to buy as cheaply again for a long time. And while deviating slightly, the last remark prompts us to say to you that there is no indication of being able to hold to the present general price level, even in event of an unexpected end to the war, for there is not sufficient merchandise to supply a continued demand and a lamentable scarcity of raw material, so very greatly advanced prices are anticipated for next year. The illuminating addresses of two of the speakers at the Chautauqua give you an idea of the enormous amount of goods required for the army from Canada and United States alone, and which represents only a small percentage of the Fighting Forces of the Allies, to say nothing of that required for the operations of the enemy, which will have its influence on conditions after the war.

Don't buy useless articles, things you don't need, because they are cheap, but in merchandise you want, our advice is:
BUY AND SAVE---NOW

Children's Overalls

Khaki with Navy and Purple Trimmings. 2, 4, 6, 8 years for 75c.

Fancy Printed Dress Muslin 27 inches Wide

The Corset

Our Corset Department is under the management of A Graduate Corsetier, who understands the fitting of Corsets correctly and the completeness of our stock and the comfort of our fitting rooms makes the buying of corsets a pleasure, while the quality of our stock and the correct fitting guarantees satisfaction and comfort.

THE GOSSARD CORSET is, in our opinion, the best front laced corset made to meet the requirements of particular women at moderate prices. The lines of the Gossard corset easily distinguish them, for they conform to the natural contour accentuating its grace and beauty.

The Fall styles reflect no radical changes but introduce a few improvements, and the low bust predominates.

Gossard prices are\$3.00 to \$6.50

D. & A. Corsets lead the "Canadian made" products cut on up to date lines and made of good materials which have always given satisfaction.

Children's and Misses' as well as Ladies' Waists are included in this range and prices.

CANADIANS MANUFACTURE MANY BRITISH AIRPLANES

TOTAL NUMBER UP TO THE END OF MAY LAST WAS 2,000

Ottawa, Aug. 9.—The number of Canadians who have joined the Royal Air Force and its predecessor, the Royal Naval Air Service and the Royal Flying Corps, since the outbreak of the war is not available for publication owing to military reasons. The same source, however, is not applied to the other activities in Canada, in connection with the development and maintenance of the allied air services.

In January of last year, the Imperial Munitions Board through Canadian Airlines Limited, commenced the construction of aeroplanes for training purposes in Canada.

The total number of machines manufactured up to the end of May together with the spare parts, was 2,000. The number of employees engaged at this factory is 2,500 and recently the plant has been engaged in constructing a number of biplane aeroplanes for the United States navy, showing how closely the two allied countries of North America are co-operating in their efforts to beat the Hun.

PLACING CONTRACTS

The Imperial Munitions Board has placed a contract for the construction of an important number of the latest improved type of high-power aeroplane engines, to be used in equipping fighting planes for service at the front. This is a somewhat surprising development for a country so young as Canada in the aeroplane making industry as this particular design of engine represents the highest class of workmanship attained in any machine of this nature yet produced.

No engines are manufactured at the national plant, but are supplied from various outside sources and assembled and mounted there. The principal materials entering into the construction of the machines—apart from the engines—are spruce, birch and high grade linen, all of which are used in fabricating the wings. A large number of women are employed at the plant in this capacity. The bodies of the machines are composed of the wooden frame covered with canvas. The seating space is protected by an aluminium frame and the propellers are made of mahogany.

The board, up to the end of May, has contracted for the cutting of 248,000,000 feet of spruce logs from which it is expected to secure 43,000,000 feet of sawn aeroplane lumber, in addition to 5,700,000 feet of dried spruce for the British air board and required for the construction of aeroplanes. Further contracts have been made with approximately 70 mills in British Columbia for their total output for extended periods of clear Douglas fir for use in the construction of aeroplanes.

LIST OF FAIR DATES

The following fair dates for the present year were recommended by the Fair Committee and adopted on June 14, 1918.

Chauvin, August 15.

CANADIANS IN BIG BRITISH DRIVE

Prussians and Bavarians Fled Before Advancing Infantry and Tanks Leaving Many Guns Behind

HAIG IN GENERAL COMMAND

With the British army in France, Aug. 8.—Fighting their way through the Germans at dawn, on a front of over 15 miles, astride the river Somme British and French troops this afternoon had reached points from five to six miles inside lines which this morning belonged to the enemy.

The Prussians and Bavarians fled before the advancing infantry and the tanks, leaving many of their guns behind. Large numbers of prisoners have been taken both by the British and the French and heavy casualties undoubtedly have been inflicted on the enemy. Thus far everything has been accomplished with exceptionally small losses to the allies.

Of one entire British corps, for instance, two hours after the attack began, only two officers and fifteen men of the ranks were reported as captured. The artillery has followed up the storm troops closely and now is hurling shells down upon the enemy forces, which, taken by surprise and fleeing, are in a crippled condition. That means that reinforcements are on the way to help them.

What tomorrow holds for the enemy cannot be forecasted, but the outlook is not a promising one under present conditions.

Moreau and the country front ad. joining Villers-Lux-Enlève, have been taken by the French, while the British have captured the Dodo and Hamel woods, which, taken by surprise and fleeing, pushed a considerable distance beyond.

Especially hard fighting was experienced and is still in progress on the left flank of the French in the neighborhood of Morlaucourt. The weather helped in the advance.

North of the attack, the German barrage began at 4 o'clock this morning and lasted four minutes. Tanks then rolled forward and with them the infantry swarmed toward the enemy lines. These lines were reached and passed as a mist started to roll in.

All along the line, except possibly northward on the left flank, very little enemy shelling was experienced after the attack got well under way.

ADAPTED FOR OPEN WARFARE

Nearly all the country already fought over and that now lies in front of the allied forces is low and rolling, and especially adapted to open warfare. One new German division, which had just arrived in this line, before the attack was launched, was told to expect local attacks. Prisoners taken from this division say that they had heard nothing of a general attack being contemplated.

TANK CHASING GENERAL

Where the tanks and the armored car batteries pressed forward in the rolling country there was much agitation among the enemy. A report came back that a British tank, probably one of the fast "little whippers," had been seen chasing a frightened German general up the road. But the enemy general was not alone in the direction in which he was going. Observers reported considerable columns of enemy transport going eastward in a hurry during the middle of the day.

Further south, the tanks likewise did excellent work. They also had been taken across the river Luce under the cover of night and they did valuable work in assisting in the capture of Dodo wood and Hamel wood and the nearby high ground.

Slightly north of here the British batteries moved forward so rapidly that they were up and firing in their new positions 90 minutes after midnight when the infantry went over the top, followed at first in this particular case by the tanks 1,000 yards in the rear.

PROTECTED BY THE WEATHER

At 6 o'clock the weather was so thick that objects 30 yards away were hardly visible and the British were not slow to take the opportunity to plunge through under its protection. About 6:45 the first prisoners began coming back. They were unwounded and looked clean, as if they had just come off parade, showing how complete had been the surprise. The British pounced on them before they had the slightest chance to give battle.

The prisoners that arrived later were not so clean, and they came carrying wounded on stretchers.

The British artillery, which had started off with a thunderous roar, by 7 o'clock had quieted down to a virtual silence. This was because the artillery had ceased firing while it was being advanced to keep up with the infantry and the tanks. It was the tanks which, by 7 o'clock, had rolled ponderously into Cerisy, driving off the enemy, and in a few hours, in a difficult manoeuvre, took the woods opposite.

TOOK MANY GUNS.

The tanks crossed the Avre and did excellent work here, too, with the infantry. On the peninsula between the Avre and the Somme, the British captured many guns. Reports from the south say that things are going in splendid fashion there and that the French have been

equally as successful as the British. Hastily organized counter-attacks have developed here and there along the line, especially south of the Somme, but so far all have been reported to have broken down under the hot fire of the allies.

COUNTER STRIKES EXPECTED

It may be taken for granted that further enemy counter strokes will develop, either organized from the front, or from fresh forces that Crown Prince Rupprecht undoubtedly will try to hurry up from other sectors. Further reports of heavy fighting may, therefore, be expected.

London, Aug. 8.—Field Marshal Haig's statement concerning the new offensive by the British and French troops shows that the enemy line had been driven in about seven miles and a half in the center at Le Plessier, which lies southwest of Moreuil. It shows that goodly gains also have been made eastward over the front of 15 miles lying between Le Plessier and Morlaucourt.

The statement states that no estimate can be made concerning the prisoners, guns and material captured, but that several thousand prisoners and many guns have been taken. The text of the communication says:

"The operations commenced this morning on the Aniens front by the French first army under command of Gen Debentry and the British fourth army under Sir Henry Rawlinson, are proceeding successfully. The assembly of allied troops was completed under cover of night, unnoticed by the enemy."

"At the hour of assault French, Canadian, Australian and English divisions, assisted by a large number of British tanks stormed the Germans on a front of over 20 miles. From the Avre river, British troops crossed the enemy was taken by surprise and at all points the allied forces have made rapid progress."

"At an early hour our first objectives had been reached on the whole of the front attacked."

During the morning the advance of the allied infantry continued actively assisted by British cavalry, light tanks and motor machine gun batteries.

The resistance of the German divisions in the line was overcome at certain points after sharp fighting and the French troops, attacking with great gallantry, crossed the Avre river and despite the enemy's opposition, carried hostile positions.

North of the Somme the German part of our final objectives were gained before noon, but in the neighborhood of Chilly and south of Morlaucourt parties of the enemy offered prolonged resistance.

"In both localities the fighting was heavy, but ultimately our troops broke down the opposition of the German infantry and gained their objectives. To the south of the Somme the gallantry of the allied infantry and the dash and vigor of their attack had gained during the afternoon the final objectives for the day on practically the whole of the battlefield."

Assisted by our light tanks and armored cars, cavalry passed through the infantry and beyond our objectives riding down the German transport and limbers in their retreat, and capturing villages and taking many prisoners.

MARIANNE SCHOOL PICNIC

On Friday, July 5, the Marianne School picnic was held. This picnic had a two-fold purpose, to furnish enjoyment for the school children and to raise money in aid of the Red Cross. The weather throughout the day was perfect, and this did much to make the picnic a success, and a considerably large crowd gathered.

The sports began about 8 o'clock in the afternoon, and the children and their friends entered into these with enthusiasm. Miss Berthenson had kindly donated a sheep to be raffled in benefit of the Red Cross, and the drawing of the lucky number was one of the most interesting events of the day, as over one hundred tickets had been sold. The lucky number (No. 47) was held by Mr. A. Standinger, of Benalto.

There was also sale of free gifts, and a fish pond which brought in some money. Ice cream was also sold. The amount realized from the sale of tickets was \$26, and the proceeds from the sale of free gifts, the fish pond and the ice cream was \$38, making a total of \$64, which has been forwarded to the Red Cross Society.

At the close of these events, supper was served, after which the people scattered to their respective homes.

KING FERDINAND DRIVEN OUT OF BULGARIA.

London, Aug. 8.—King Ferdinand of Bulgaria with the Crown Prince and the Princesses Eudoxia and Nausha arrived unexpectedly at Nauehm, Germany, on Wednesday, according to an Exchange Telegraph Company dispatch from Copenhagen. King Ferdinand apparently intends to remain a long time at Nauehm, where he is incognito as "Count von Muny."

It is believed in well-informed circles that King Ferdinand left Bulgaria because of internal conditions there. German newspapers merely say that the reason for his sudden visit is known in responsible circles.

SUPT. BRYAN ON TOUR OF PROVINCE

Supt. Bryan of the provincial police begins an inspection of the field work of his force this week. He has made up an itinerary which will cover all the detachments in the province, and the men and the work at each post will be reviewed on the ground. The itinerary will extend over the coming month, beginning with the Red Deer detachment. During Supt. Bryan's absence on this field inspection, Inspector J. S. Piper will be acting as assistant superintendent.

THE UNION GOVERNMENT.

Has the Union Government justified its existence, and has it been worth the turmoil, trouble, and difficulty that was necessary to its creation? asks the Calgary Albertan in response to a sermon given in that city by Dr. Bland, and as the doctor has favored a Red Deer audience with an address, the article will be read with interest here.

In the sermon on Sunday night, Rev. Dr. Bland, a supporter of Union government in the last election, faced the question courageously and fairly. He did not give as definite an answer as some would wish. He said that it was better than any government which had preceded it. It would not be displaced by a government composed of either of the old parties. It had achieved some things of very great importance. It had not been perfect. It had shown some weakness, and had in it too many members of the old parties with the old party methods.

His verdict is one which will generally be accepted by the Canadian people. The government has shown strength, though not always tact, in its measures. No old line government would have had the courage to cancel certain exemptions, but the action was necessary, thought the details of administration were lacking in common sense and ordinary tact.

The government has shown courage, as Dr. Bland stated, in its prohibition enactment, and also in its attempt to abolish the patronage system of appointments. The government has made mistakes as well. It showed weakness in grappling with the railway problem. It was lamentably weak in handling the postal workers' protest. In its campaign for greater production it went only part of the way by removing one of the chief restrictions on production, a high and unbearable tariff on farm machinery. It did not go the whole way.

This is the best and probably the worst that can be said of the Union government. It is much better than the government which preceded it, or any government that Canada has ever had. It is immeasurably better than the government that could have been organized had the result of the elections been different.

To criticize an administration under most trying circumstances is easy enough. The Union government has been subjected to criticism in the house and to much press abuse out of the house, which can be described as nothing else than hissing hysterics. The judgment of the learned minds of the whole world.

and gentle critic is very fair. The government is burdened by too many of the old crew—men like Crowthers, Doherty, and such like, who were no strength to the old government and are a burden to the present government. There is a lack of leadership in the administration. There is a lack of leadership in Canada. We have no leader in the Dominion who has the confidence of our people as Wilson has the confidence of the American people, or who dominates the situation as Clemenceau dominates France, or who leads the people even as Lloyd George leads them in England.

However, the union government has justified its existence. It justified its existence when it took a firm stand on conscription and cancelled the multitude of exemptions. It has achieved some things of vast importance which no party government would have had the courage to undertake.

NO CANADIAN AIR FORCE ORGANIZED YET.

Toronto, Aug. 9.—While it is also in the right direction, the system of supplying aviators to the imperial government under the old age plan, is still the same, and does not represent the force entirely organized, was the opinion of Col. Merritt, chairman of the Canadian aviation fund given to-day regarding the formation of the Royal Canadian Air Force.

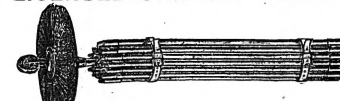

"Training, of course, is the cornerstone of the whole service. If Canada cannot have her own air service, then let the Dominion pay for several squadrons, say 50 machines, keep them equipped by Canadian money and managed by Canadians," continued Col. Merritt.

Major Rugby stated that the local officers of the Royal Flying Corps had not been acquainted of the formation of the Royal Canadian Air Service and had not been consulted in the matter. He declined to discuss the merits of the new branch.

FROM MENTAL STRAIN.

London, Aug. 9.—King Ferdinand of Bulgaria, is suffering from mental strain and needs absolute seclusion and rest, according to a dispatch to the Exchange Telegraph Company from Amsterdam, quoting advices from Cologne. The dispatch says that he cannot attend to the affairs of state for some months.

LICENSED CHIMNEY SWEEP

Having secured a new machine direct from England, I will clean stoves, furnaces, pipes and chimneys. I have the only machine in the city. I also repair and build chimneys. Work guaranteed. P.O. Box 240 E. HASTE PHONOS 217

Miss Nina Gudmundson, of Ponoka, are visiting with the Misses Gudmundson.

Mrs. Eckford, senr., of Beckville, visited Mrs. R. H. Wood over last week.

Miss Gladys, of Calgary, is spending her holidays in the city with friends.

Oscar McCann's family, of Strome, were visiting relatives and friends in the city last week.

Mrs. H. S. Pearson left yesterday for Three Hills, where she will spend a few weeks with her sister.

Drawing sets, compasses, graphic drawing books and blueprints, crayons and crayolas at John McVicar's.

W. L. Payne, K.C., and Mrs. Payne, of Colbourne, Ont., are in the city visiting their son, W. E. Payne and Mrs. Payne.

President R. C. P. Gee, of the Great War Veterans' Association returned from attending the convention of the Association at Toronto last Thursday.

Miss Moyes and Miss Ruth Peterson left Saturday for Medicine Hat. They enjoyed their holidays while in Red Deer.

Have you seen the Self-Anchor Tree puller? It's a winner. H. F. Kenny, commission agent, will demonstrate it at your request.

You can pull your tractor out of a hole or remove trees and willows in short order with the Self-Anchor Tree puller. See H. F. Kenny, the commission agent.

The regular monthly meeting of L. O. L. 1625 will be held on Monday, August 19, at 8.30 sharp. General business and degree work will be the order of the proceedings. All members are requested by the W.M. to be present.

Mr. Manning, of Calgary, and Mr. Sutherland, of Canmore, were in the city last week in connection with business of their firm, the Manning-Sutherland Lumber Company, of Red Deer.

L.O.L. 1625 are holding a big degree meeting on Monday next, August 19, at 8.30 sharp. The meeting is for initiation into the R.A. degree. A splendid meeting promised all brethren who attend.

James J. Todd, of Bowden, who joined up with the Royal Air Force last week, left Tuesday morning for Toronto, where he will go into training. He was a pupil of Red Deer High School.

Word was received from Pte. Cecil Carwell, of the Machine Gun Section, of his battalion that he had been promoted to the position of Machine Gun Commander, with six men brave and true under him.

Miss Ellen Peterson left Sunday evening for Edmonton, where she will finish her milliner course. Katherine and Haydon Peterson are spending their holidays with Mrs. P. Harrison, of Edmonton.

Rev. Mr. Henderson and wife and child, of Three Hills, Alta., were the guests of Mr. and Mrs. Thos. Meeres out at the farm last week. Mr. Henderson was Mr. Meeres' minister when he lived in Saskatchewan.

R. L. Gaetz, of Brimpton & Gaetz, has recovered sufficiently from his recent operation at Edmonton to return home, arriving in the city Saturday evening. He was able to be down to the store yesterday, and will soon be himself again.

Mrs. Brumpton returned from her visit to her daughter at Hardisty last week. She reports her son-in-law as recovering from a serious operation. She also spoke of the disastrous frost which visited that part of the country on July 22. Nearly everything was destroyed she claims, and it is doubtful if the farmer will even have potatoes.

T. S. Miller has been eating tomatoes grown by himself for two weeks past, and has also a number of the large cucumbers grown in his garden. Of course they were grown in the house and placed in ice and brine and covered at night, but still that shows what can be done here. Mr. Miller handed up a cucumber six inches long last week which was a beauty. It seems easy to grow them if you only know how.

The Superintendent of the Chautauqua on Monday night, took the opportunity of publicly thanking Mr. N. White for the use of the Gourlay piano which had been in use during all the concerts. If you liked the tone of the piano, and all the artists who played on it spoke of its beauty, you should look in at Mr. White's store on Ross Street and try it over, and get particulars of prices and terms. The public spirit of these men who help to make these concerts possible in our midst deserves reward, and this can best be done by trading with them when you require the goods which they provide.

Dr. and Mrs. McEwan, accompanied by Mrs. Rutledge and Miss Lois Rutledge, of Calgary, returned from a most enjoyable trip through southern Alberta, into Montana and through the Crown's Nest Pass on Saturday last. The doctor reports grand scenery in the mountains and the southern country so dry that there is practically no crop. They had some rare sport trout fishing, and Mrs. McEwan caught one perfect beauty weighing about two pounds. They travelled over 1,000 miles in the ten days they were away and no accident happened until they were coming into the city, when a tire blew out just as they crossed the track coming into the west end.

Camille Lerouge, C.P.R. freight

officer, is enjoying his holidays in Calgary and other places.

The Red Deer Public Library will be closed from August 13th to August 25th.

Charles F. Carwell, of Edmonton, is spending his holidays with his parents in the city.

Mrs. Alexander, who has been visiting with Mrs. Leslie, Fourth St., returned to Calgary on Thursday.

The Horticultural Society will hold their annual show in the armories on Thursday, August 22nd. See prize list in another column.

Miss Isabel McMillan, of the Calgary General Hospital nursing staff, is spending her holidays with her parents, Mr. and Mrs. J. M. McMillan.

Miss Michener who has been visiting her relations in Ontario, returned last week, looking much improved in health for her vacation.

Mr. and Mrs. John Burgess, of Holman, Washington, have motored to Red Deer to visit Mr. Burgess' sister, Mrs. McKinnon, Clearview.

In the report of prizes in grains and grasses in the Red Deer prize list the name of F. H. Tallman should have appeared as winner of first in Marquis wheat.

Take notice that there will be a change of train service on the 13th. The new time table will be found in another column. The trains run about an hour later at noon and a little sooner at night.

The general monthly meeting of the Great War Veterans' Association will be held in the club-rooms on Sunday, August 18th, at 3 p.m. Every member is requested to be present to hear the President's report of the Toronto Convention.

Ted Meeres in his last letter to his mother enclosed some flowers of France, among them being a red poppy, butter cup and honeysuckle. The poppy is nicely preserved and reminds one of that beautiful poem, "If you break faith with us who die, we shall not sleep though poppies bloom, in Flanders Fields."

The local branch of the Great War Veterans' Association are holding a picnic in Wanasco Park on Wednesday afternoon August 21st. All veterans, soldiers' wives and next of kin are cordially invited. Sports will be held during the afternoon for men, women and children.

IN MEMORIAM.

In loving remembrance of our dear one, Florence Emma Hewitt, who died August 11th, 1917, aged 3 years and 5 months.

We loved her, yes, we loved her,

But Jesus loved her more;

And He has sweetly called her

To yonder shining shore.

The golden gates were opened,

And with farewells unspoken,

She calmly entered home.

Mrs. R. HEWITT.

An English Poet on Canada and War

SIX years ago an English writer, R. B. Vernebe, by name, spent a summer in Canada and wrote under the title of "The Fair Dominion" one of the best descriptions of this country, from the Old Country point of view, that has yet been the light. Vernebe had married a Canadian girl and had a sympathy for things Canadian, which led him to appreciate rather than criticize the New World which he found stretching between Atlantic and Pacific. Although by no means of fighters, he enlisted in the Public School Battalion of the Royal Fusiliers on the outbreak of the war, and a commission in the 11th Brigade early in 1916. A number of poems from his pen attracted much attention in the columns of the "London Times" and other publications—one of them, entitled "To Canada," was widely quoted.

"Canada, Canada, is not thy face most fair? Is there a land men know fairer than thee? Where is heaven half so vast? Where blows a lovelier air? What are thy sons doing here over the seas?"

So runs the first of six beautiful verses. Wounded in 1916 he went back to the trenches only to fall mortally wounded in an attack on Hawthorn Wood in April, 1917. Like Rupert Brooke and Alan Seeger, and the young Canadian poet, Bernard Freeman Trotter, R. B. Vernebe reached his highest powers of expression under the stress of love and the young powers of expression under the stress of love and the young powers of expression under the stress of love.

"What shall I bring to you, wife of mine, When I come back from the war? A ribbon on your breast, or a twist? A shawl from a Berlin store? Say, shall I choose you some Prussian hosiery? When the Italian we were fighting Shall I bring you a Potemkin goblet back And the crest from a Prince's coat?"

Little you'd care what I laid at your feet— Ribbons, crests, or shawls— What if I bring you nothing, sweet? Nor maybe come home at all? Ah, but you'll know I love you, you'll know Two things I'll have kept to myself: Mine honour for which you bade me go— And my love, my love to the end.
